Because the UMBRELLA project provides specific knowledge and skills in the implementation of goals and cross-border cooperation for local and regional entities in the South Baltic Region.

Thanks to participation in the UMBRELLA you can:

- change the way of thinking about **participation** in EU projects;
- understand the **opportunities** posed by the South Baltic Region;
- **participate** in the project and as a result of the use of grants in **cooperation** with international partners.
